Subhadeep Pramanik

Top 1 % TryHackMe

Objective

To kick-start my career in cybersecurity as a fresher, seeking an entry-level position that allows me to apply my knowledge and passion for cybersecurity. I am eager to learn and contribute to the organization's security efforts by leveraging my foundational understanding of cybersecurity principles, networking, and system administration. I aim to gain practical experience, develop my skills further, and contribute to creating a secure environment for the organization's digital assets.
